

EN9526

Naloxone Overdose Emergency Cabinet (Non-Locking & Non-Alarm)

Are you starting a public access naloxone initiative in your community? County health departments across the USA specify our cabinet because it is the most visible, the most customizable and the largest capacity cabinet on the market.

It offers space for 3 to 6 boxes of Narcan brand Naloxone (including the new OTC box) as well as an 8.5 x 11 unfolded instruction sheet. Includes 3D Purple sign and an opioid overdose poster which details how to identify an overdose and how to use Narcan nasal spray. This version has no alarm, no hammer and no lock.

**No Medication Included - We Sell Empty Cases/Cabinets and You Obtain Your Own Medication*

PRODUCT FEATURES:

- Back panel allows for very visible display of emergency kit (in box or individual doses)
- Raised back allows for a laminated 8.5" x 11" instruction sheet to be displayed without folding (much easier to read in an emergency)
- The same metal construction you see in AED cabinets worldwide
- All metal cabinets include a 3D projecting sign you can hang above the cabinet
- Cabinet measures 13" x 13" x 4" and will easily hold six boxes of Narcan (12 doses)
- Custom labeling offered to show your organization's logo, crisis line number and replenishment/refill information
