

EN9376

The Original Allergy Emergency Kit™ Cabinet (Non-Locking with Door Alarm)

The Original Allergy Emergency Kit™ cabinet* (Non-Locking with Alarm) is intended to finally make Epinephrine as available as a fire extinguisher or defibrillator. It is designed to be hung in school lunch rooms and hallways as well as any public place - as close to the point of need as possible.

The Original Allergy Emergency Kit holds up to six EpiPen or Auvi-Q auto-injectors with an 8.5 x 11 instruction sheet. This version does not use a lock. It has a battery powered door-alarm. Shipped with signage, mounting hardware and laminated injector instructions.

**No Medication Included - We Sell Empty Cases/Cabinets and You Obtain Your Own Medication*

PRODUCT FEATURES:

- Patent pending secure storage of Epinephrine for public spaces
- Access by authorized personnel
- In an emergency anyone can get instant 24/7/365 access to Epinephrine.
- Velcro backing allows school nurses to customize kit contents based on the likely risks (adult vs. child) (asthma vs. food allergies)
- Mounts easily to cinder block or drywall with included anchors
- Our proprietary "weight guidance" labels indicate difference in adult/child dosage even for a person who has not received training.
